

## PRIVATE LABEL

### Traditional processing methods with modern technology

With a perfect and delicate combination between traditional processing methods and modern technology, our roasted cashews can still keep the original sweet, fatty and aromatic characteristic of cashews and preserve the nutritional content thanks to no frying oil was used.

### New products reserch and development

We are always open to work upon requests of our clients to do research and develop new product lines suitable for each different markets.

### **Brand building support**

We support taking pictures or creating short videos to introduce our customers' finished products.

### **Products**
